SEVERE WEATHER INFORMATION NUMBER ONE (1) – TROUGH OF LOW PRESSURE

ISSUED BY THE SAMOA METEOROLOGY DIVISION AT 5:00AM

THURSDAY 5th MARCH 2020

...HEAVY RAIN ADVISORY WILL BE EFFECTIVE THIS EVENING FOR SAMOA...

A trough of low pressure to the north of Samoa is slowly descending southward. This trough is predicted to introduce widely scattered showers across the forecast zone starting this evening towards Saturday. This scenario prompts the issuance of the heavy rain advisory for Samoa till Saturday.

Potential Impacts:

Heavy downpours at times with poor visibility, foggy and slippery roads over mountain passes and ranges. Gusty winds at times. Pooling near roadsides and waterways.

(The next severe weather information will be issued at 5:00 pm this evening)
