CHOGM 2024, "An island experience" - PM Fiame

By: Nanai Taofiga Laveitiga Tuiletufuga

As the first Pacific Island in the Commonwealth to host the Commonwealth Heads of Government Meeting, (CHOGM) 2024, Samoa's Prime Minister Fiame Naomi Mataafa has assured it will be an unforgettable "island experience."

On a serious note, the Samoan Government leader during the post press conference in Rawanda over the weekend noted that the 2024 meeting will also be used by Samoa and her Commonwealth partners to revisit the progress, setbacks and achievements since Samoa hosted the 2014 United Nations Small Islands Development State (SIDS) meeting.

Over 5,000 delegates from across the globe including international media congregated in Apia to stage the SIDS Conference hailed as the biggest ever international gathering on Samoan soil.

Prime Minister Fiame told the media that although the theme for the 2024 Commonwealth Heads of Government session is not determined, the meeting will be another "good opportunity to refocus the Commonwealth on Small States" and to review what has being determined in the SIDS conference" and the Samoan Pathway inked after the weeklong brainstorming in Samoa.

COVID19 STATE OF EMERGENCY ORDERS EXTENDED TO 26th JULY 2022.- (28th June 2022.)

Acting Prime Minister Tuala Tevaga Iosefo Ponifasio

Good afternoon Samoa.

It has been over three months since our first community case, on 17th March, 2022. Our drive for full vaccination and close observation of all health care measures, coordinated by the Ministry of Health and in close collaboration with the Disaster Advisory Committee, development, districts and villages across Samoa is producing anticipated results, as evidently shown in the decline of number of people affected by COVID 19.

For this, we continue to praise and honour God for His faithfulness, mercy and grace over Samoa.

The latest statistics from the Ministry of Health, as envisaged, showed a downward trend in new infectious, as reported for the period 19th June to 26th June, 2022, 129 people were infected. Our confirmed number of infected people has increased to 14,901, of which 14,776 are community cases, and 125 are imported cases. Only one patient is currently monitored in the isolation ward and none in the Intensive Care Unit. On June, 20th 2022, regrettably, a one year old female died from complications relating to COVID 19. She is our first baby to die from the virus, taking our cumulative number of deaths to 29.

Our Government once again offer its sincerest condolences to the families of the lost loved ones to COVID 19. We continue to pray for the comforting of the Holy Spirit, for the affected families.

A total of 153,386 COVID tests have been administered and testing are continuing at all the health centres and hospitals. The booster vaccination of 12 to 17 years old has started, as well as the second booster for 18 years old and above. Vaccination remains our best defence against the severe complications of COVID 19.

We therefore continue to encourage all those who continue to doubt vaccination, and have not done or completed their vaccination, including a booster, to visit the nearest hospital to get vaccinated. We are close to acquiring full herd immunity for Samoa, to protect our families and especially the under 5 year olds, who are not yet eligible for COVID 19 vaccines.

As widely reported, we will reopen our borders for International travels from 1st August, 2022 and the Ministry of Health continues to lead the coordination of safety and health regula-

tions for travellers to Samoa. Government continues to encourage the observation of health measures as surety of the safety of our country.

In this regard, Cabinet has approved the continuation of Samoa under **alert level 1 (yellow)** for the next four weeks, commencing from midnight of **28th June to midnight of 26th July, 2022.**

Cabinet has also approved the following Health Travel Advice for arriving passengers to Samoa.

1. All passengers are required to wear face masks at all times;
2. All passengers must fill in the arrival Health declaration form **in flight** and provide a local phone number and email/Facebook address;
3. All passengers arriving into Samoa with a negative test, are **NOT** required to home quarantine;
4. All passengers arriving in to Samoa are encouraged to take precautionary and preventive measures within the first few days of arrival;
5. All passengers arriving into Samoa are to arrange and have a supervised Rapid Antigen Test (RAT) done at any health facility on **day 5** and report results to MOH on the email provided on the MOH website;
6. All passengers with a **POSITIVE** test after five days, must home isolate for **7 days** from the date tested positive with a **repeat test done on day 7.**

Our efforts in protecting our nation shall continue and therefore calls for the support and assistance of everyone. Most essential to our joint effort is preventing Samoa from new infections, protecting our families and loved ones. As such, we continue to pray for God's favour, guidance and protection upon our nation. We call on our people to continue respecting health measures of protection as we gradually welcome the rest of the world to our home – Samoa.

Finally, I wish the honourable Prime Minister and her delegation a safe journey home.

God Bless and Stay Safe Samoa
Soifua

CHOGM 2024, “An island experience” - PM Fiame

Most importantly, the Samoan Prime Minister sees the next CHOGM get together as the perfect opportunity for the Commonwealth to review progress since 2014.

“Logistically is going to be an island experience,” reassured the first Lady Prime Minister since Samoa gained Independence 6 decades ago.

Having represented Samoa in three CHOGM meetings in the last two decades, Prime Minister Fiame says that hosting the 2024 Government leaders will be in a “very diverse hosting environment.”

“This is my third CHOGM, the first one was in Ember in 90s and the second one was in Berth about ten years ago so the upcoming meeting in Apia will further strengthen the Commonwealth aspirations to “live and improve the lives of our respective people through what we can do together.”

In Rawanda, the week-long meeting discussed important matters to the Commonwealth family of nations such as democracy, peace, and governance; sustainable and inclusive development; post-covid-19 recovery, climate crisis, new members, and the secretary-general of the Commonwealth Secretariat.

Before Rawanda last week, the United Kingdom hosted the Commonwealth in 2018, where Samoa’s bid to host the 2024 meeting and presented by former Prime Minister Tuilaepa Sailele Malielegaoi.

#1 PHASE \$1 MILLION TALA DISTRICT PROJECT

2 District Centers commissioned

By: Marc Membrere

The \$1 Million Tala District Development Project brainchild by Government in line with its 5 year Pathway for Development Strategy framework is bearing fruit.

Two of the 18 Electoral Constituencies which have signed up officially opened their District Committee Centers over the weekend.

On Friday, Faleata #2 Electoral Constituency dedicated its new District Committee Centers located at Vailoa.

The following morning, Sagaga #4 Electoral Constituency followed suit with the District Committee Center located in Saleimoa.

The District Centers are central to the Project as it will serve as the Headquarters for the beneficiaries to coordinate and organize projects which will be beneficial for their respective constituencies and residents.

Construction for the Faleata #2 Center started in January according to Faleata M.P. and Minister of Commerce Industry and Labor Leatinu'u Wayne So'oialo at a cost of \$87,000 plus.

And to ensure inclusive participation by all villages within Faleata #2, the Committee selected includes 3 from Vaiusu, 2 each from Vailoa and from Vaigaga and one each Tulaele, Elise fou, Siusega, Falelauniu, Talimatau, Tanumapua and Tapatapao. The number of representatives serving in the Committee is calculated on the number of respective voters.

At Saleimoa, Acting Prime Minister Tuala Iosefo Ponifasio dedicated the Center for Sagaga #4 urging residents to take advantage of the assistance rendered by Government for their benefit.

Finance Minister Mulipola Anarosa Ale Molio'o performed the honors to cut the ribbon.

Once a district has set up office and appointed a council, the Ministry of Women Community and Social Development will inspect the setup before processing the release of the ST\$1 million for individual village based projects to proceed.

Of the 18 district who have signed, 8 were from Savaii and 10 Upolu.

The funding Government's \$1 million Tala District Development Project will be available from(MWCSD)- \$63,679,430 million tala Budget request for the upcoming new Fiscal Year.

The overall Aim of this Program is to inspire social harmony and inclusive growth for Samoa, through district developments utilizing our community capacities, natural resources and environment. The Government focus is aligned to the Key Strategic Area 1 of the Pathway for the Development of Samoa:

1. Alleviating hardship,
2. Improved Public Health,
3. Quality Education,
4. People Empowerment, and
5. Skilled Workforce

The Government aspires that this is a golden opportunity to enhance appropriate developments within all districts.

Yellowfin Patrol Boat to the rescue

By: Marc Membrere

Samoa's Economic Exclusive Zone remains safe from illegal activities such as smuggling, unlicensed fishing with authorities resorting to out-source and secure the services of a patrol boat while awaiting the delivery of a replacement patrol boat next year funded by the Government of Australia.

A press statement, from the Samoa Police Maritime Wing confirmed that the "Yellowfin" vessel has been contracted to patrol Samoa's borders as the country awaits new replacement boat from Australia

Operations are to commence next week with agents Samoan Police Maritime Officers and Fisheries Agents will be on board the vessel during routine patrols to ensure integrity of the fishing E.E.Z.

And authorities are sending notice to Mar-

iners and fishermen to cooperate and respond to radio calls from Yellowfin.

Failure to comply and take direction from Police Officers and Fisheries Agents aboard the vessel can lead to appropriate legal actions if warranted.

Earlier this month the Australian Government inked a multi-million tala gift to Samoa with a Guardian-class patrol boat to replace the Nafanua II.

Australia's Foreign Minister Senator Penny Wong in Apia recently during a press conference the new patrol boat is a testament to her Government's commitment to sustain mutual cooperation with the Pacific including Samoa.

"We do understand how important these maritime assets are to island nations," said Senator Wong.

The new patrol boat is scheduled to be delivered next year.

Satapuala, Aleisa i Sisifo and Magiagi hosted their Talomua Events

Satapuala Talomua

Towards the Government's drive for communities to take ownership of their agricultural and fisheries developments, three Talomua events were held consecutively on Friday 24th and Saturday 25th of June, for three different communities in Satapuala, Aleisa Sisifo Women's Committee and Magiagi.

On behalf of the Government, the Minister of Agriculture and Fisheries, Honourable Laaulialemalietoa Leuatea Polataivao Fosi Schmidt thanked the organizing committees of the three Talomua for successfully hosting their events. The Hon. Minister encouraged the value and importance of unity within each community and village in order to obtain positive returns from their planned activities for development.

The Hon. Minister reminded the three communities that as they develop the land for more crops and livestock to secure a consistent supply of agricultural produce, they should also be aware of the various pests and diseases with appropriate control measures. He also urged the villages and communities to support the ongoing efforts by the Ministry to eliminate the Coconut Rhinoceros Beetle which remains a major threat to our coconut industry, as well as the Black Leaf Streak disease that continues to affect our banana plantations and the many other pests and diseases that affect our other major crops including taro.

In the Hon. Minister's speech in each Talomua, he stated that "As part of the government's focus on strengthening agricultural and fisheries developments across the communities in Samoa, a direct assistance approach of \$1 million tala development fund will be made available for the district development efforts."

Mr. Vaili Mimita of Satapuala, spoke on behalf of the village and requested the government for assistance in providing consignments for their crops and harvests for export. He added that the village are in need of more lands for agricultural developments and have now utilized part of the government lands in Satapuala for this purpose.

The Aleisa Women's Committee representative relayed their request for improvements

Aleisa i Sisifo

in access roads within the Aleisa farming areas. She stressed the importance of having proper access roads as the farming community in the Aleisa area has increased in number and farm sizes throughout the years.

The last Talomua event was held at Magiagi on Saturday in the afternoon. Mr. Luafau Tulima, village mayor for Magiagi thanked the government for their support and acknowledged the initiative of having district Talomua, for it has now enabled more farmers and fishers of various villages to partake actively and have ownership of their events. Mr. Tulima is one of the many successful farmers that have been working in collaboration with the Ministry for many years and a role model for most of the farmers in his village and Samoa. As part of the Ministry of Agriculture and Fisheries' assistance for communities and villages which hosted these events, planting materials as well as farming equipment and tools were provided for each of the three communities.

CABINET LIAISON OFFICERS FORUM FOR PUBLIC SERVANTS

(PRESS SECRETARIAT, 28th June, 2022); The Government of Samoa through the Ministry of the Prime Minister and Cabinet (MPMC) virtually hosted the second Cabinet Liaison Officers' Forum for all public servants, Friday, 24th June 2022.

The Forum is a follow-up to the annual Cabinet Liaison Officers' Forum held on the 10th of June, 2022.

As part of ongoing awareness programs to increase its coordinating function across the whole of government, the Cabinet Liaison Officers Forum targets Cabinet Processes and Procedures and a platform to update the stakeholders and new recruits.

It is essential the Cabinet receives factual information and data to assist with their decision making duties and responsibilities.

Held twice a year, the forum is crucial for Liaison Officers to receive updated policies and procedures approved by Cabinet and share experience and challenges on their current duties and responsibilities.

The Deputy Chief Executive Officer who is also the Acting CEO for the Ministry of the Prime Minister and Cabinet, Afioa Nanai Sovala Agaiava, reiterated the important of the Cabinet Liaison Officers' Forum for all Government agencies in his welcoming address.

"The Government's intention to facilitate this Forum is for wider opportunities to share and understand the roles and responsibilities of the Ministry of the Prime Minister and

Cabinet as the central agency that operates the heart of the Executive government to ensure a well governed, informed and secure Samoa".

Nanai noted that official information is extremely important as it is one of the many types of information that people and organizations need in order to make well informed decision.

More than thirty participants from Government Ministries and Corporations attended the Forum.

Samoa Police Remote Piloted Aircraft System Training Takes Flight

The Samoa Police, Prisons, and Corrections Services have celebrated another major milestone in the development of their Remote Piloted Aircraft System (RPAS) capability, with the first Samoa Qualification Authority (SQA) endorsed Samoa Police Drone Training delivered at Fagalii last week.

Commonly known as drones, RPAS provide over watch and enhance situational awareness for police operations.

The drone capability and training course has been developed over the past 18 months in partnership with the Australian Federal Police through the Samoa Australia Police Partnership (SAPP).

The project, which has been led by Assistant Chief Executive Officer Angelo Chan Mow, has seen the integration of basic and advanced drones to police operations, which have been a critical eye in the sky for major events.

ACEO Chan Mow said: "We have grown the capability quickly due to the partnership with the AFP."

"It is not just gifting of the physical drones, but the partnership with AFP Drone Pilots that has been critical to ensure we continue to develop and implement the latest lessons and techniques deployed by our partners," she said.

The drone-training course is closely aligned to the AFP Drone Pilot Course, which abides by the stringent Australian Civil Aviation Safety Authority guidelines. Samoa Police have adapted the course to comply with Samoa's Civil Aviation Act 1998 and Civil Aviation Regulations 2000.

In March 2022, SQA assessed both writ-

ten and practical training components, which the SQA Board approved in April, recognising that the Samoa Police Drone Training met all criteria and requirements for Recognition of Non Formal Learning.

AFP Mission Commander Daniel Evans said he was "proud to see how far the capability has come in 18 months and the benefit being experienced".

"The AFP partnership with the Samoa Police is driven on assisting to build sustainable capability that assists Police to maintain a safe and stable Samoa and contributes to regional capability," he said.

"Our work is far more than gifting equipment. We have AFP members in country working with Samoa Police on a daily basis as part of the SAPP and we look to build connection with AFP subject matter experts to ensure development of the capability is ongoing".

Acting Commissioner Monalisa Tiai-Ke-ti said: "drones are just one example of new technology that the Samoa Police have implemented which are an important part of the modern policing toolkit."

"While we continue to adapt and enhance our response it is important that we build a sustainable capability with effective governance and SQA endorsed internal training which supports operations long term," she said

"Our response to major operations such as the General Election, diplomatic visits, COVID lockdown and the 60th Anniversary of Independence has been enhanced by the drone capability and it will be vital in our preparation for CHOGM 2024."

REQUEST FOR EXPRESSION OF INTEREST

Project: Separation of MCR and form two Respective Ministries

Title: Human Resource Consultancy Services to provide Technical Analysis and Evaluation in Facilitating the Proposed separation of the Ministry of Customs and Revenue as endorsed by Cabinet (FK(22) 03).

- A. The newly planned government reform to separate the current Ministry of Customs and Revenue to establish two separate government bodies, is an initiative to increase efficiency in service delivery as well as creating effective measures to foster innovative methods to increase economic benefits.
- B. The consulting service will provide technical assistance and support on the development and implementation of proposed organisational structures for the new entities including provisions of providing support for human resource management assessment and planning. This includes the conducting of needed research, desktop reviews, stakeholder and staff consultations, analysis and report writing.
- C. The terms of reference for the Human Resource Specialist/Consultant will be:
- To conduct an assessment of the current shared human resources between Customs & Revenue.
 - To assess the core functions of the two separate entities and identify the support services requirements for each of the separate entities.
 - To develop proposed organisational structures for the two separate entities considering the following human resource aspects:
 - Job and skill changes to meet labour demands of each entity.
 - Human resource needs required to accomplish each entity's vision, mission, and objectives as well as to improve performances.
 - The workforce for each entity to have optimal technical and soft skills to achieve productivity.
 - Career paths for employees to increase job satisfaction and value.
 - To identify key human resource policies and processes that are required for building, strengthening, and maintaining effective human resource management while ensuring compliance with Public Service legislations and policies.
 - To develop functional and job descriptions as required under the proposed organisational structures.
 - To provide support on the preparation of submission documentation in line with Public Service legislations and policies - as to manage the required recommendation process with the Public Service Commission (PSC), Ministry of Finance (MOF), and Cabinet sub-committee members, in order to gain central approval for the proposed organisational structures.
- D. The key deliverables/outputs of this consultancy will be:
- Inception Report on how the above consultancy will be performed – outlining the methodology and work plan including the number of consultations, those will be consulted, information to be collected, and proposed outline of the main report.
 - Draft Report – addressing all the requirements of the TOR outlined under Section C above. The Consultant is required to make presentations on the draft report to the client and key stakeholders.
 - Final Report – a finalised version of the draft report after incorporating all the comments and feedback from MCR, Cabinet sub-committee members, and other key stakeholders (e.g., PSC and Ministry of Finance).
 - Draft Cabinet – presenting the proposed organisational structures for Cabinet consideration and approval.
- E. Work packages for key deliverables are depicted in Table below:

Outputs	Deliverables	Timeline
1. Scoping, needs assessment and job analysis.	• Inception Report stating methodology and work plan.	5 working days
2. Design of a draft report (with draft proposed organisational structures) – following completion of data collection, consultation, research, and desktop reviews.	• Draft Report.	20 working days
3. Finalisation of the draft report (with final proposed organisational structures).	• Draft Report. • Draft Cabinet paper.	7 working days
Total		32 working days

- F. Consultancy tasks are to be conducted within thirty two (32) working days under urgent conditions and needs to be completed by the set time frame.
- G. The Ministry of Customs and Revenue now invites the interested human resource consultants to provide information to validate the required qualification and relevant experience to perform the prescribed services. The shortlisting basis are:
- * At least 10 years' experience as a Human Resource Consultant
 - * Have conducted and successfully completed similar consultancy work in the last 5 years. Please provide detailed description of services rendered, with references from recipients / implementing agencies.
- H. A consultant will be selected in accordance with The following legislations:
- * Treasury Instructions – Section 6 Procurement and Contracting (Amended 2020)
 - * Procurement Operating Manual (POM) 2020
 - * Consultancy Remuneration Framework 2018
- I. Expressions of interest must be in a sealed envelope clearly marked with **“SEPARATION PROJECT MCR 2022 – Human Resource Consultancy services for the Ministry of Customs and Revenue”** must be delivered in a written form to the address below by 11.00am on Monday 4th July 2022.
